OPCF Focus on Church Quality:

For the past three years, we have been improving our focus to maximize our impact on your church mission

In the coming months, you will see new tools and support to enhance your facility stewardship outcomes

- **Resource Management Tip and Tools**
- **Professional Development**
- **Continuous Process Improvement, and**
- **Data Management (Procore software)**

Contact OPCF to discuss your stewardship needs!!!!

Sustainable Energy & Environment:

- **BULK PURCHASE OF NATURAL GAS:**
 - Parish/school purchases from NOVEC Energy Solutions for a set term & price lower than current rates
- **SOLAR ROOF TOPS:**
 - A power purchase agreement between a contractor and the Diocese of Arlington to fund, design, construct, own and operate solar photovoltaic systems on agreed-upon Parish/School rooftops
 - Parish/school agrees to “buy back” the electricity generated on the rooftop at relatively low rate
- **ENERGY AUDITS:**
 - A no-cost energy audit for parish and school facilities
 - Engineers will evaluate the current use of energy (electricity, natural gas, and water) used by a parish/school to identify opportunities to reduce consumption, and in most cases improve comfort and overall performance of your building systems
 - Could lead to construction projects that provide savings to your operational budget

Contact OPCF to discuss your energy conservation objectives!!!!
