## **\*\*UPDATE\*\***

### **DIGITAL INVOICING**

- . Beginning later this year, **DocuSign** software will be used to digitally “sign” important OPCF documents during the design and construction of your projects
- . Your diocesan e-mail account will be the primary means of communication
- . No special software or lengthy training is required on your part
- . OPCF will be available during **DocuSign** roll-out to assist you and your staff
- . Please submit any comments or concerns to me during any point of the roll-out

# TOWARD A SUSTAINABLE DIOCESE

Reverence for the earth =

- *reducing energy waste*
- *reducing our energy consumption*

Several CDOA parishes are now approved for installation of **rooftop solar** panels which will **reduce energy consumption & costs**

- Various non-profits help churches and schools identify and finance energy efficiency and solar energy projects, which often require little to no up-front costs from the customer
- Local solar companies perform lifetime system maintenance and operations support
- Construction time varies, but can normally be complete 6-months after contract award

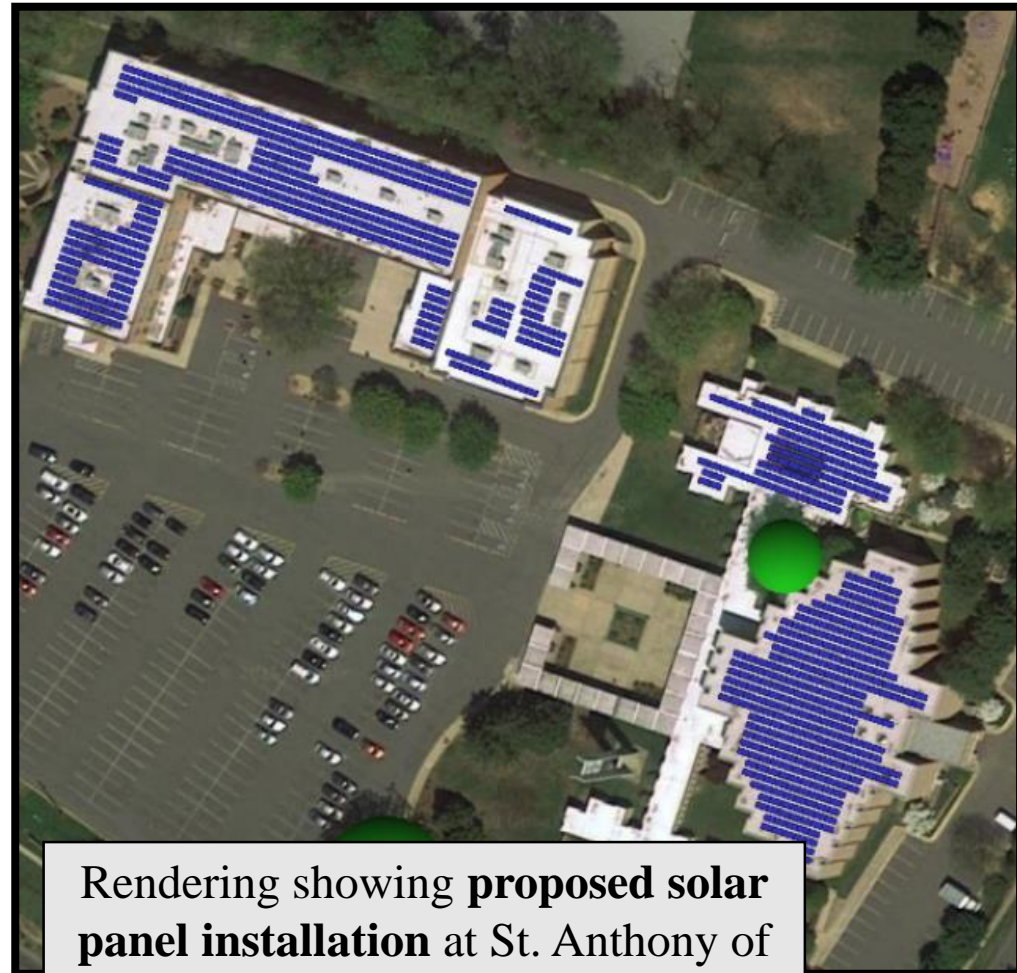

For more information contact OPCF:
